Gila County Community College Profile

Gila Community College has campuses in Globe, and Payson. Gila Community College is a provisional community college and plays a vital role in the economic development of Gila County and the surrounding rural areas. The college is paramount in attracting new industry to the area. The college has strong support from the community.

Students

- Gila community College's fall 2016 full-time student equivalent (FTSE) was 746.
- Gila Community College provided postsecondary educational services to over 3,700 students in Gila County in fall 2016.

Programs

- Gila Community College has 35 programs approved with AZ Job Connection, these programs must be approved by AZ Job Connection in order to work with the Workforce Innovation and Opportunity Act (WIOA).
- Gila Community College, in partnership with Eastern Arizona College, offers a fully accredited Registered Nursing Program.
- The College is able to provide academic and vocational training opportunities in the region that would not otherwise be possible. It is helping meet the needs of rural Arizona for qualified workers in the areas of Nursing, Cosmetology, Fire Science, EMT, Welding, Machine Shop Technology, Construction and Building Trades, Computer Technology, Medical Coding and Billing and other programs.
- Workforce development partnerships have been developed with employers in the region such as Freeport McMoRan, Arizona Department of Transportation, Arizona Department of Corrections, Banner Payson Medical Center, Cobre Valley Regional Medical Center, local Fire Departments, and the U.S. Forest Service.
- Gila Community College is working with Globe, Miami, San Carlos, Payson, and Hayden school districts to improve student academic achievement and dual enrollment programs. In addition, the college is providing professional development opportunities for K-12 educators. Gila Community College also works in concert with Northern Arizona Vocational Institute of Technology (NAVIT) and Cobre Valley Institute of Technology (CVIT).

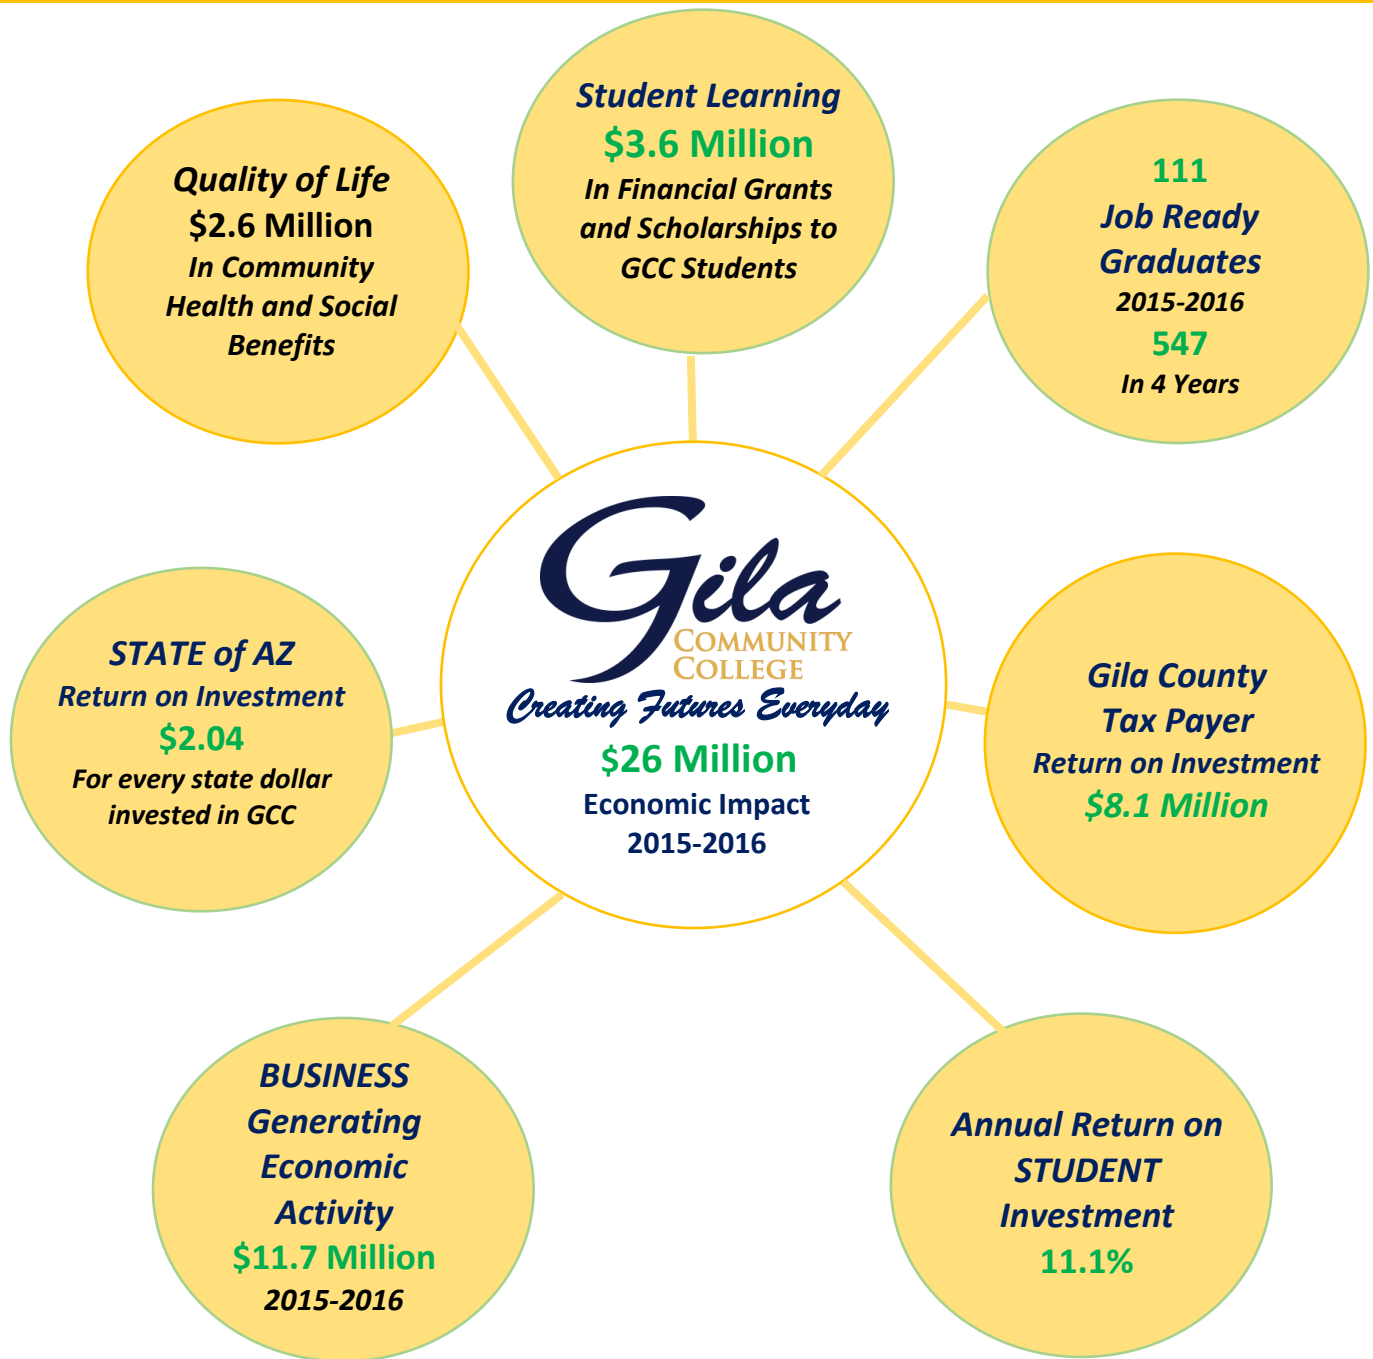

Academic Partnership

- Gila Community College (GCC) has a contract with Eastern Arizona College (EAC) for providing postsecondary educational services. This long term partnership provides stability for strategic growth as applied to student enrollment and program development. The partnership with EAC is based on our mutual commitment to providing high-quality, cost-effective, postsecondary educational opportunities in the rural counties of Arizona. Operationally, GCC and EAC money is separate. EAC does not make spending decisions for GCC.

Leadership

- The Gila Community College District Governing Board is a five member board that typically meets monthly. The governing board members are elected by the people in the district in which they reside.

Gila Community College Economic Impact 2015 - 2016

Cities and Towns in Gila County

Globe, Hayden, Miami, Payson, Star Valley, Winkelman and several unincorporated rural areas.

"I am a cosmetology student and a high school student. I love that GCC makes it possible for me to start a career and finish high school at the same time." Marisol Guereque, Payson

"The Math and English instructors are great. They are always there to give me the extra help I need if I'm struggling with something." Alyssa Griffin, Globe

"I want to become a flight nurse. GCC is giving me a head start on my goal by offering great classes at affordable prices." Caitlin Wheeler, Payson

"The instructors are awesome. They really work to prepare me for my future. They make learning fun." Heidy Juarez, Globe

HIGHER LEARNING MEANS HIGHER EARNING

547 GCC students have earned degrees or certificates over the past 4 years. In 2016, GCC graduated 111 students from programs such as nursing, cosmetology, business, graphic design, and welding.

GCC's students are prepared for the jobs of TODAY and the jobs of TOMORROW. Students with community college degrees earn **\$412,000** more than high school graduates during their careers, or **\$11,770** annually.

GCC Creates Jobs & Dollars

- GCC created \$26 Million in direct and indirect economic benefits in 2015-2016
- GCC's direct and indirect employment in Gila County is valued at \$7.2 Million
- 88% of GCC's students earn industry credentials and are ready to become wage earners and taxpayers
- County taxpayers receive a return of \$1.97 for every dollar invested in GCC
- Arizona receives a return on investment of \$2.04 of every dollar it invests in GCC
- GCC created \$11.7 Million in business activity and \$2.6 Million in community health benefits

DID YOU KNOW . . .

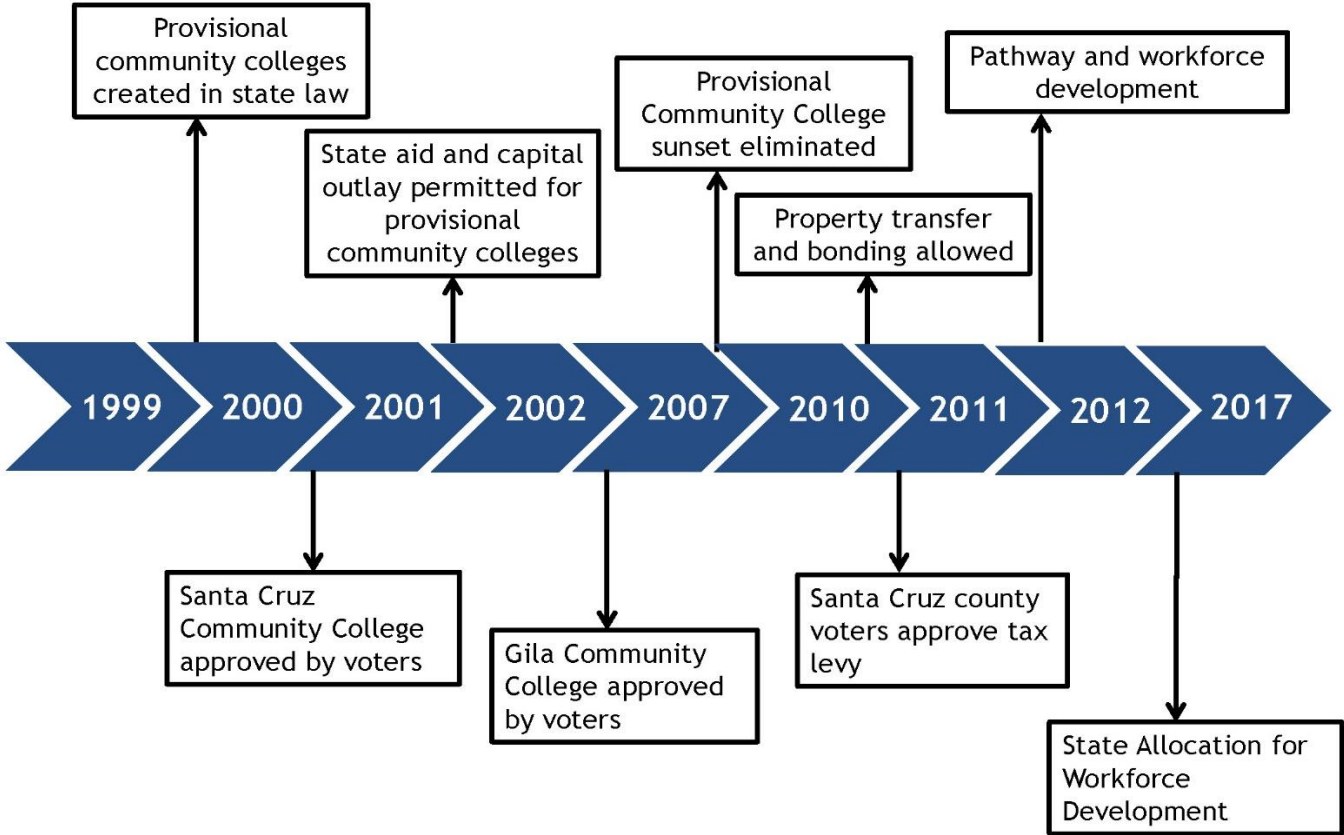

- GCC ranks at the **98th percentile** for percentage of the community served by **all community colleges in the USA**
- GCC ranks at the **97th percentile** on the national Noel-Levitz Student Satisfaction Survey
- 92.6% of GCC students are Gila County residents
- 7.4% of GCC students come from outside Gila County
- GCC fulfills employment needs with timely and innovative programs such as Medical Coding and Billing and Dental Assisting
- GCC partners actively with businesses and government agencies to provide high quality educational services
- GCC serves young adults and life-long learners at its campuses in Globe and Payson, Arizona

GCC Creates Futures

- 16% of GCC graduates go on to an Arizona University
- 27% of GCC graduates go on to attend other universities
- 71% of students achieve their academic goals
- Debt free financial aid is available to qualified students in the form of grants and scholarships
- GCC offers high demand programs in allied health care, welding, building trades, cosmetology, fire science and other fields
- GCC offers programs of study for students preparing for a university degree
- GCC offers college courses to high school students

Gila Community College has access to over 95 degree and certificate programs through Eastern Arizona College. The above programs will vary from year to year based on community needs.

Workforce Development

Allied Healthcare Programs

Dental Assistant - Certificate of Proficiency

This program will provide the student with the necessary training in order to deliver quality oral healthcare. X-ray imaging and clinical skills are included in the training. This program provides the opportunity to become part of a professional dental team and to start a career in the healthcare field.

Medical Assistant - Certificate of Proficiency

This program prepares you for an entry-level position as a medical assistant. Emphasis is on preparation to perform both clerical duties and clinical duties in a medical office. Medical assistants perform administrative and clinical tasks to keep the offices of physicians, podiatrists, chiropractors, and other health practitioners running smoothly. The duties of medical assistants vary from office to office, depending on the location and size of the practice and the practitioner's specialty.

Nursing Assistant - Certificate of Proficiency

This program prepares you for an entry-level position as a nursing assistant. Emphasis is on basic patient care skills, based on the knowledge of universal precautions, asepsis, basic human needs, body mechanics, treatments and procedures, patient admission, transfer, discharge, and eldercare.

Medical Coding and Billing Specialist - Certificate of Proficiency

This certificate prepares individuals for diagnostic and procedural coding and billing positions in settings such as clinics, physician offices, hospitals, managed care organizations, private billing or insurance companies. The program includes theoretical and laboratory instruction as well as professional practice affiliation. This certification will also prepare students to begin careers as professional coders and/or billers and prepare students for AHIMA (American Health Information Management Association) certification. AHIMA will allow students the opportunity to prepare to take specific coding and/or billing certifications.

Patient Care Technician - Certificate of Proficiency

This program will prepare you for an entry-level position as a patient care technician. Emphasis is on technical skills necessary to perform personal care to complex patients, implementation of selected portions of care plan including respiratory services, rehabilitation services, ECG, and phlebotomy under the supervision of registered nurses. Upon completion of this certificate of proficiency, students are eligible to sit for the National Certification exam as Certified Patient Care Technicians (CPCT), which is available through the National Healthcareer Association.

Nursing - Associate of Applied Science Degree

This program is designed to prepare you for beginning employment as a staff nurse giving direct care to patients. The program has received approval by the Arizona Board of Nursing. On successful completion of the program, you will be awarded the Associate of Applied Science in Nursing degree and will be eligible to make application to write the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Total Minimum Degree Requirements including prerequisites: 71 credits

Workforce Development

Additional Programs

General Technical Studies - Associate of Applied Science Degree

This degree provides an opportunity for all students to develop and upgrade a broad variety of technical skills which are applicable to many entry-level technical occupations. Students are given the latitude to focus on specific programs which address their personal interest and aptitudes.

Total Minimum Degree Requirements: 64 credits

Business Administration - Associate of Business Degree

This degree prepares students to transfer to a college or university and pursue a bachelor's degree in Business Administration. Upon obtaining the bachelor's degree, you are prepared for employment in fields such as Accounting, Computer Information Systems, Economics, Finance, Management or Marketing. Since program requirements differ between universities, the official transfer guide (www.aztransfer.com) of the school which you plan to attend upon leaving EAC should be consulted in order to adjust this program to your personal needs.

Total Minimum Degree Requirements: 64 credits

Small Business Management - Associate of Applied Science Degree

This Degree prepares you for a middle management career in retail, wholesale and industrial organizations as well as self-employment as a small business owner.

Total Minimum Degree Requirements: 64 to 65 credits

Cosmetology - Certificate of Proficiency

Associate of Applied Science Degree

The Cosmetology program provides students an opportunity to apply Cosmetology practices and principles in a simulated salon environment. Upon successful completion of the program, students will be eligible to take the Arizona State Board of Cosmetology Examination. Classes meet approximately eight hours a day, five days a week for 10½ months in order to obtain the 1600 hours training necessary to qualify for the state exam.

Students can continue their education and complete an Associate of Applied Science degree by taking eighteen General Education credits and two elective credits. Entry into the Cosmetology program requires prior admission. Total Minimum Degree Requirements: 64 credits

Nail Technician - Certificate of Proficiency

This program prepares you for an entry-level position as a nail technician. Emphasis is on basic nail care, manicuring, and hand and arm massage. Classes meet to satisfy the 600 hours training necessary to qualify for the Arizona State Board of Cosmetology nail technician exam.

Construction and Building Trades Technology - Certificate of Proficiency

This program is designed to prepare students to work in the construction industry. The Building and Construction Trades Technology program includes basic instruction in carpentry, electrical, plumbing, drywall, painting, masonry, and concrete work, and provides entry level training to students preparing for a career in several construction or facilities maintenance fields.

Renewable Sustainable Energy - Certificate of Proficiency

The Renewable Sustainable Energy Certificate of Proficiency provides the student an opportunity to develop advanced skills in the technical field of renewable energy. Students will receive a background in industrial and residential applications of electricity, solar energy, and wind energy.

Welding Technology/Fabrication - Certificate of Proficiency

This program provides the students an opportunity to develop skills using various welding and cutting tools, techniques, and material in preparation for entry into the welding trades.

Building Energy Analyst Training Weatherization Procedures

Students will develop the skills needed to implement practices for energy efficiency to existing buildings that will result in the reduction of energy use and will prepare students to test for Building Performance Institute (BPI) Building Analyst Certification.

Fire Science Program - Certificate of Proficiency

Associate of Applied Science Degree

The Fire Science Certificate program, in cooperation with the Arizona Fire Marshall's Office, prepares students for service as firefighters in rural settings. This certification emphasizes professional firefighting skills corresponding to the everyday demands of the profession. It is designed for both individuals already serving in the profession as firefighters and as a preparatory program for those who seek a career in firefighting. The Fire Science Associate of Applied Science degree is intended for students who either plan to enter employment or who are currently working in fire services or related fields and want to upgrade their knowledge and skills. The degree provides pre-service and professional firefighters with the skills necessary for a fire service career. It prepares you to move toward a managerial or command position in the fire service.

Total Minimum Degree Requirements: 64 credits

Emergency Medical Technician – Basic - Certificate of Proficiency

This Certificate prepares you for an entry-level position as an emergency medical technician at the basic level. Emphasis is on preparation to perform pre-hospital emergency services as specified by ADHS.
